DETAILED ACTION

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 1, 6 and 7: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a device for optically connecting two coaxially opposing fibers comprising a ferrule having a longitudinally extending cylindrical body made of shape memory material and having a middle portion with first and second ends, a first connection clamp, a second connection clamp both clamps located on either end of the middle portion and each having a bore that traverses a central axis through the middle portion and has a diameter slightly smaller than the diameter of the fibers to be connected, a pair of longitudinal slots that traverse the diameter of the body beginning within a connection clamp and extending to the free end of the other connection clamp, a first cap and a second cap each comprising a wire whose diameter is approximately the same as the fiber such that when inserted into the bore from each side the wires penetrate into the ferrule from each side and abut each other at the middle of the length of the ferrule or a tool for deforming a ferrule having two connection clamps having free ends with conic recesses and each central portion having a conic groove wherein the tool has two internal and two exterior grips that are traversed by a passage that allows fibers and cap wires to be removed or inserted or the method of using the tool as set forth in claim 7, in combination with the rest of the claimed limitations.

With regard to claims 2-5 and 8-16: These claims are allowable over the prior art of record because they depend from allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
